RCS – Remote Court Scheduling System

Release 4.20.1

November 20, 2018

Restore Error Messages when doing a Search in RCS SR 139421

After the release of RCS 4.20, a bug was found in that when users did a search instead of getting Error messages returned for the searches/docket numbers in question they were receiving the below message:

RCS release 4.20.1 is to correct this issue so that users no longer receive the above message and the proper RCS Error Messages (if applicable) appear on the screen when search results appear.
